

About Me

Hi! I'm Laya, a passionate tech enthusiast and a creative mind who loves exploring the world of code. I love nature, food, writing, reading and enjoying life to the fullest!

Projects

Project 1: Soil Moisture Monitoring System

A smart IoT project that measures soil moisture levels, ensuring efficient water usage in agriculture. Built with sensors and a user-friendly interface.

Project 2: Tunnel Automation System

An innovative automation system designed for tunnels, providing enhanced safety, monitoring, and real-time control using sensor networks.
